

JOB DESCRIPTION- MILLWRIGHT/FABRICATOR

HYBRID STEEL DESIGN LLC. is seeking a self-motivated highly qualified millwright to join our team in Fort Benton, Montana. We are a quality-oriented steel fabrication and millwright company, dedicated to producing the highest level of service and products to our clients. This team member will play a critical role in our operations and be a key element of our success.

Duties and Responsibilities:

This job will include various Millwright responsibilities including but not limited to:

- Work safely, and in full compliance with all safety regulations.
- Installing, repairing, and maintaining industrial machinery and equipment.
- Assembling and disassembling machinery and equipment
- Troubleshooting and diagnosing mechanical problems.
- Reading and interpreting blueprints, schematics, and technical manuals.
- Aligning and calibrating machinery and equipment
- Installing and repairing pumps, motors, and other mechanical components.
- Performing preventative maintenance on machinery and equipment.
- Fabricating and welding components.
- Installing and repairing conveyor systems.

Skills/Qualifications:

- 5 years of experience and or certification completion of a millwright apprenticeship program.
- Must have a positive and professional attitude and character.
- Self-motivated
- Good at adhering to strict safety guidelines and cognizant of safety risk.
- Working knowledge of mechanical technical skills to effectively read documents such as machine manuals, specifications, and blue prints.
- Limited oversight required by supervisors.
- Must be proficient in troubleshooting techniques to solve machine issues.
- Ability to work effectively to establish good working relationships with other employees.
- Excellent mathematical skills and strong attention to detail.

- Must be a team player and have the ability to interact well with non-team members working on various projects.
- Must have a working knowledge of the occupational hazards and safety precautions of the trade.
- Must be able to lift and manipulate heavy objects.
- Must be able to stand and walk for long periods of time.
- Subject to working in a variety of environment.
- Potential exposure to extreme cold and hot temperatures.
- Fit and move in confined spaces.
- Exposure to noise above 85 decibels and intense odors.
- Exposure to areas with limited visibility.
- Ability to maintain and prioritize tasks and projects in a busy shop environment

Benefits: Hybrid Steel offers a competitive salary and benefit package for full-time employees

- New Hires are eligible first of the month following 90 day waiting period
- Health Insurance- We offer two competitive health plan options through Blue Cross Blue Shield
